Hi Eva,

The August dates don't work well for us. July 23, 28, 29 and 30 work. Aug. 5th is open and possible the 4th.

For the next meeting, I would like to go over the various groundwater plumes. Touch on their source control status and any FS and source control compliance issues. Below is a link to a groundwater plume figure from our 2013 Milestone Report. It is dated, but will work for our discussion.

<http://www.deq.state.or.us/lq/cu/nwr/PortlandHarbor/docs/MilestoneReport1301Figure04.pdf>

Also, we can briefly discuss Rich's "Worry List". Beyond that, I would ask you to let us know what sites you would like to discuss. To help with this, I have attached a working spreadsheet of most of our active sites. The spreadsheet identifies the EPA focus sites. The EPA worry sites are noted in red letters. The spread sheet also color shades sites red, orange and purple per Rich's April 2015 memo on our Summary Report. As I noted, the spreadsheet is a working document. It includes the identified schedule for source control decisions per the Nov. 2014 Summary Report, stormwater sites we are recommending for individual loading evaluations and notes about post ROD monitoring.

Let me know your thoughts. We should lock down date(s) and then finalize an agenda.

Matt

Matt and Alex-

Thanks to you and your crew for taking the time to educate me on your sites and all the work that DEQ and the city has gone into characterizing the sites. I really do appreciate all the effort (and patience) to get me up to speed! Lots of info to chew on. I wanted to let you know that my current plans are to be in Portland July 8, Aug. 6-7, Aug. 11-12. The first two trips are pretty full. August 11 doesn't start until 6 pm, so I could possibly be down there by 10 am to do more site reviews or actual field visits. My schedule is also open the last 3 weeks of July if you want to propose two days during mid-week.

As I previously mentioned, if you want EPA to get more involved in investigating storm water issues at some intransigent sites along Portland Harbor, I can help in that process.

Thanks again,
Eva

Eva DeMaria
